

# Working to Approach Youth Workers as Agents of a Response to Disability

WAYWARD

NEWSLETTER - DECEMBER 2020

## WHAT HAVE WE DONE SO FAR

The partnership implemented focus groups in their countries reaching out to 4 people, aged 18-25 with intellectual disabilities, a research of 10 good practices and a research on existing barriers of mentally disabled youngsters for what concerns integration in Sport, education and society and respectively on the existing offers. Using the best practices, the research on offers and barriers and the analysis of the focus group the partners created national reports, that will be combined in one international report containing all information.

## WHAT IS COMING NEXT

The Final report is on its final step, soon to be disseminated and the partners will use the information from that report in order to develop a training format that will allow youth workers to fill the gap between existing needs and extant offers. Also Social media of the project are in progress as well as a website with all the project information and outputs
